

Cluster Box Units and Accessories

Product Overview

A Cluster Box Unit (or more commonly referred to as CBU) is a free-standing outdoor mailbox unit with up to 16 locked compartments, 1-2 parcel locker(s) and a secure outgoing slot for mail collection. These pedestal mounted units are widely used across the nation for safe, secure access to mail 24-hours a day by multiple residents from one central location.

Developed and approved by the USPS in 2005, the new CBU "F" specification became the standard for all manufacturers and replaces the outdated Neighborhood Delivery Collection Box Unit (NDCBU); which is no longer permitted for the delivery of mail and therefore should be replaced with new CBU equipment. The USPS also began to officially license the new CBU in 2007 to qualified manufacturers.

Only manufacturers meeting the stringent manufacturing and USPS licensing requirements are approved to produce the "F" Series CBU. Florence exceeds customer expectations by also providing a USPS Approved ultra-high security CBU (known as an HSCBU) as well as two different styles of USPS Approved accessories to dress up the standard CBU.

For those installations seeking the convenience of this product for their private delivery applications, Florence offers three- and four-digit combination lock alternatives for each tenant compartment; as well as a private lock conversion kit for master access.

These Florence exclusive offerings ensure the broadest CBU product selection available on the market today.

Cluster Box Units

Officially Licensed by the USPS

vital™ cluster box units

Setting the standard for outdoor mail delivery

The USPS prefers centralized mail delivery over other methods for all new construction developments (see page 4 for more details). The Florence vital™ 1570 series cluster box unit (CBU) design has been adopted by the USPS as the design standard for all CBUs manufactured in the United States. As the original manufacturer of the "F" Series, Florence is pleased to offer a complete line of USPS Approved cluster box units.

We are also honored to have been selected as the sole supplier of CBUs to the USPS since 2005 and are proud to offer you the same security and reliability that the USPS depends on every day.

Product Features

- Solid aluminum integrated outgoing mail compartment and parcel lockers in every type
- Heavy-duty tenant cam lock with three keys
- Silver adhesive decals with black numbers (1-16 & 1P-2P)
- Robotically welded cabinet and hood seams
- Rugged, weather-resistant powder coat finish
- Constructed of stainless steel and aluminum, including aluminum pedestal
- Master front-loading door designed to prevent prying with interlocking overlapping seams

Optional Features

- Custom door ID: decals (up to six characters) or engraving (color-filled or standard)
- Private delivery lock options: three- or four-digit combination lock

Florence "F" Series CBU is Officially Licensed by the USPS

The Florence vital™ 1570 series CBU was the first Officially Licensed CBU of the US Postal Service for centralized mail delivery. License #1CDSEQ-08-B-0012

Cluster Box Units

Officially Licensed by the USPS

vital™ cluster box units

Convenient and secure outdoor delivery solution

As a free-standing outdoor mailbox unit with up to 16 locked compartments, 1-2 parcel locker(s) and a secure outgoing slot for mail collection, these pedestal mounted units are widely used across the nation for safe, secure access to mail 24-hours a day by multiple residents from one central location. Units can be mounted individually throughout a neighborhood, or grouped together in one location for a larger mail center.

And, for those installations seeking the convenience of this product for their private delivery applications, Florence offers three- and four-digit combination lock alternatives for each tenant compartment; as well as a private lock conversion kit for master access.

Cluster Box Units

Decorative Accessories

vogue™ cluster box accessories

These USPS Approved designer caps and pedestal covers offer a quick and easy way to provide a touch of elegance to any centralized cluster box unit

vogue™ cluster box accessories are exclusively designed for the Florence vital™ cluster box unit and offer two distinct design styles in the same architectural powder coat colors as the CBU. Now matching surrounding architecture is as easy as dressing up an existing CBU installation or adding a touch of elegance to a brand new CBU for a complete ready-to-install unit. These decorative accessories snap-together for a quick and easy installation with minimal hardware.

Product Features

- Rugged, weather-resistant powder coat finish
- All aluminum construction
- Easy, snap-together installation with minimal hardware
- Mix-and-match caps and pedestal cover types to create unique CBU installations

Did you know?

You can mix-and-match the two types of vogue™ accessories - like a column pedestal and a finial top - to create a unique accessory all your own!

Cluster Box Units

High Security

vigilant™ high security cluster box units

Added peace of mind for higher-risk outdoor installation locations

The Florence vigilant™ 1565 series high security cluster box unit (HSCBU) was designed specifically for the U.S. Postal Inspection Service. Built to combat mail theft and reduce break-in damage in high crime areas, its hardy features make the vigilant™ High Security CBU incredibly strong.

This product line is an extension of our robust vital™ CBU series with the benefit of additional tamper resistant standard features. Give your neighborhood that extra peace of mind by selecting the industry-exclusive Florence vigilant™ High Security CBU.

Product Features

- Rugged, weather-resistant powder coat finish
- Reinforced gate components and heavy-duty stainless steel pedestal
- Special security collar on every tenant cam lock with three keys
- Heavy-gauge aluminum cabinet wrapper reinforced with stainless steel supports
- Large diameter hinge rod on all doors for added protection
- Reinforced shelf above and below the carrier access door
- Integrated Parcel Lockers with stainless steel door hinge

Optional Feature

- Custom door ID: decals (up to six characters) or engraving (color-filled or standard)

Did you know?

While the HSCBU may look similar to the standard CBU, its beefier stand and extra security features make it an excellent choice for higher-risk areas and is only available from Florence.
