

5800WAVE

ADEMCO's 5800WAVE is a 100% wireless siren that simplifies installation and saves time. It provides flexibility to choose the most ideal location for a siren, since it installs at any location without running wires. It plugs into any standard duplex receptacle and installs in seconds.

The wireless siren module also provides periodic status information and battery back up for an added level of performance and protection.

KEY FEATURES:

- Siren output level is 95db at three feet
- Transmits status, tamper, low battery, supervisory and AC loss messages to the control
- AC powered with a rechargeable 12 hour battery backup
- Plugs in to any standard duplex receptacle
- UL listed for residential burg and fire

KEY BENEFITS:

- Lowers labor costs and saves time
- Simplifies installation
- Provides added level of protection
