# How to use your Lyric thermostat

# How to use your Lyric app

Once your thermostat is configured and connected to your smartphone, you can take advantage of the following features:

Tap to access the menu

Tap to access your thermostat controls

Double-tap shortcuts to easily activate your favorite settings

Tap to create a new shortcut

Tap to edit an existing shortcut

Tap to view or adjust thermostat preferences

Double-tap to turn on/off the cooling or heating

Drag to change the temperature

# Get the most from Lyric

## Geofence

Enable geofencing and the Lyric thermostat will **automatically adjust based on your smartphone's location.**

You can also manually override your current setting when you'll be out for a few hours by tapping the Away button on the thermostat or in the app.

## Shortcuts

**Tailor your comfort to any situation at the touch of a button.**

Create unique shortcuts for unique situations or save the shortcuts you really like and they'll be available on your app any time you want. Customizable comfort has never been so simple.

## Fine Tune

**Comfort is about more than just the temperature.**

To make sure you are always comfortable, the Lyric thermostat considers indoor temperature, humidity and outdoor weather to make subtle adjustments, so 72° really feels like 72°.

## Smart Cues

Receive maintenance notifications and extreme conditions alerts to help you manage your heating/cooling system.

## Adaptive recovery

The Lyric thermostat learns your heating and cooling cycle times to deliver just the right temperature, right when you want it.

## Auto changeover

When enabled, the thermostat automatically selects heating or cooling depending on the indoor temperature.
