

TOPCOATS

Superior Vibrancy & Durability!

Lettering Enamels

- Superior vibrancy, flexibility, durability and single stroke coverage
- Excellent flow characteristics provide a clean, sharp look
- Ideal for use on interior and exterior metal, glass, wood and enamel receptive banners and vinyl

Low VOC Lettering Enamels

- Low VOC oil based, high gloss enamels for interior or exterior use on metal, glass, wood, enamel receptive banners and vinyl
- Outstanding hiding, durability, and single stroke coverage
- UV absorbers

Bulletin Colors

- Fast dry alkyd-resin high gloss enamels for interior or short-term exterior use
- Can be applied to wood, metal or masonry
- Ideal for use on interior murals and faux finish applications

Art & Poster Colors

- Flat alkyd-resin paints that are waterproof, free flowing, self-leveling, exhibit excellent hiding power and will not wrinkle paper
- Designed for interior and short-term exterior use
- Can be applied to paper, cardboard, muslin, stretched canvas, wood, Masonite, metal, and glass

Fluorescent Colors

- Semi-transparent with strong adhesion and sparkling color clarity for interior or short-term exterior use
- Great adhesion and fast drying
- Produce excellent backlight effect

Pearlescent Enamels

- Oil based, high gloss enamel for exterior use
- Can be applied to metal, glass, wood, and enamel receptive vinyl
- Brilliant luster under high intensity light or direct sunlight

Background Enamels

- Single component, fast drying high gloss enamel
- Great for sign backgrounds
