

Where is the MAC address located on the ADC-VC826?

The MAC address is located on the sticker found on the ADC-VC826 mount and the bottom of the ADC-VC826 box.

Note: The *MAC* address (not the *SN* number) is the number that is used for installation and finding the video device on the Partner Portal.

The following image displays the sticker found on the ADC-VC826 device.

The following image displays the sticker found on a video device's box. The firmware version that was initially loaded on the camera is also located on the box sticker as *FW*.
