

TELGUARD

TG-KIT LTE-V

LTE NETWORK UPGRADE KIT FOR TG-7 SERIES

COMMERCIAL AND FIRE

PRODUCT FEATURES

- Certified for use on the Verizon LTE network for long, sunset-free installation.
- Serves to upgrade all 2G/3G (GSM and GDM) Telguard TG-7 series communicators for LTE-V networks.
- Delivers full data reporting.
- Provides security supervision with automatic self-test and system trouble outputs.
- Supports multiple alarm formats.
- Utilizes advanced encryption technology for secure communications.

Telguard's TG-KIT, the industry's first LTE upgrade kit, makes the conversion of 2G/3G (GSM and GDM) Telguard commercial intrusion and fire communicators simple and affordable. With the kit, 2G versions of the TG-7, TG-7A, TG-7F, TG-7FM, TG-7FS and TG-7S can be easily upgraded without having to remove the existing enclosure, antenna or vpower supply.

In a matter of minutes, an installer simply replaces the 2G/3G circuit board with a new TG-KIT for LTE networks without disturbing the site's UL certifications. This upgrade increases the longevity of a Telguard cellular unit, ensuring customer retention and protecting a dealer's earned revenue. Activation and service procedures remain the same as they have been for Telguard's 2G/3G products.

Telguard Portal

Telguard makes adopting cellular easy with a secure Internet portal. The straightforward web interface allows security dealers and central stations to quickly and efficiently access Telguard based services 24/7. This advanced tool has multi-level user authorization and provides total account management of UL Listed Telguard cellular alarm communicators.

Telguard Cellular Service

Telguard Cellular Service provides nationwide digital cellular network coverage for all Telguard units. Telguard's Communication Center is UL compliant and provides seamless connectivity between the alarm panel, the Telguard family of products and the central station. Telguard Technical Support provides a single point of contact for both cellular service and Telguard product questions.

Advanced Reliability

- Features the ability to utilize multiple cellular technologies to increase availability and reduce false alarms.
- Automatic self-tests with central station notification ensure the cellular system is operating.
- Available relay output for tripping the alarm control panel when a trouble condition occurs.

TELGUARD

TG-KIT LTE-V

LTE NETWORK UPGRADE KIT FOR TG-7 SERIES

Kit Details

- TG-7 LTE circuit board.
- PCB Mounting and Grounding Screws.
- Mounting plate and accessories for chassis conversion of older devices.

Power

- **Transmit Power:**
200mW in all bands.
- **12VDC/Battery Consumption:**
<32mA (Standby)
250mA (Transmission).
- Utilizes transformer from existing communicator: 12VAC, 800mA UL listed plug-in.

Radio Transceiver

- **LTE Bands:** 4 & 13.
- **Antenna:** 9" dipole with 2dBi gain
12 ft of cable and universal mounting bracket.
- FCC part 15, 27 and 68 compliant.

Standard Features

- Full data reporting.
- Automatic self-test (5 min. & daily).
- Two programmable supervisory trip outputs.
- Alarm format support for SIA2, Contact ID, pulse (3x1, 4x2), modem IIe, & IIIa2, DMP.
- Telephone line monitor built-in, with Standard Line Security.

Telguard technology allows full data reporting for unlimited point-to-point signal details and maximum transmitting power for superior in-building penetration.

Telguard products are easy to install, economical, and UL Listed.

Compatible Accessories

- ACD 12, ACD 35, ACD 50, ACD 100:
12/35/50/100 feet of low loss, high performance cable.
- HGDL-0: High gain directional antenna.
- EXDL-0: External antenna.

UL Listings

Commercial Fire

864 • Control units & accessories for fire alarm systems

Commercial Burglary

365 • Police Station connected burglar alarm units and systems
1610 • Central station burglar alarm units; Line security services

Residential

985 • Household fire warning systems
