SECURE VIDEO NOTIFICATION  
AND REMOTE LOOK-IN SERVICES

**The Picture-Perfect Way to Find,  
Win and Keep New Business**

**Honeywell**

# Putting the Focus on Your Success

Informed end-users are safer, more satisfied customers who are more likely to find value in their systems and maintain their accounts. Honeywell's Total Connect Video Services\* let your customers effortlessly view activity around the interior or exterior of their homes or businesses from any remote location—enhancing their

awareness and peace of mind while improving your opportunities for growth. Just picture what it can do for your business!

## Find, Win and Keep New Business

Total Connect Video Services has tremendous end-user appeal and adds real value to your security installations—providing you with excellent potential to find new opportunities for RMR, win new customers and lower attrition.

## The Industry's Only End-to-End Solution

From control panels, cameras and sensors to the delivery services, network and intuitive customer interfaces, Honeywell is the industry's only manufacturer to offer a complete end-to-end security and video solution.

- We support the broadest range of end-user applications including environmental, outdoor protection, asset protection and more
- One contact for technical support

## Fast, Simple and Secure Installation

Honeywell's IP cameras install easily with push-button enrollment. There is no IP addressing or firewall manipulation and no security risk to customer networks. Configuration is flexible, with no service required for premise router changes.

*\*AlarmNet subscription service required.*

## Keeping Customers Connected

With Total Connect Video Services, your customers can:

- Check up on their kids, babysitters, elderly relatives, pets, employees or service people

- View live video, event notifications, text messages and images over compatible mobile devices
- Specify the exact type of events they want to be notified of and receive alerts in real-time
- Customize recording settings based on security events, video motion detection or schedules
- Record and store video clips, take snapshots or have pictures e-mailed to them upon the occurrence of an important event

- View all cameras on a single screen or one at a time, selectively stream video, pan and tilt, cover multiple angles of a room or move cameras around the premises based on need

- Manage and view multiple locations over a secure network with one login—great for business owners or customers with vacation homes and investment properties

## Get Connected

Your customers can manage their Total Connect Video Services accounts easily through [www.totalconnect.net](http://www.totalconnect.net). The intuitive, easy-to-navigate menu lets them remotely access and control their systems, view live or stored events and more. You can even customize the main navigation page with your company name, logo and messaging—a great way to build your brand and promote your business.
