Upgrade to V2.3.4 Smart Pass Management Platform

Step 1

Uninstall program from Windows

Select Start → Settings → Apps & Features → Uninstall → Choose app named “PASS” → “Uninstall”

Step 2

Open Windows File Explorer → Search for ‘MIPS’ on this PC → Delete all MIPS files found in search

Step 3

Download V2.3.4 Management Software from Dropbox link:

<https://www.dropbox.com/sh/1vhryecdc5tgax2/AACNLWWmQnFxR2Rl1JZ0378Da?dl=0>

Step 4

Run “EZ_PASS_setup_V2.3.4.exe”

Step 5

A blue pop-up will appear saying “Windows protected your PC,” click “more info,” and click ‘Run anyway.’”

Step 6

Select “Yes” to install program

Step 7

Select “Confirm” in Smart Pass Management Platform pop-up

Step 8

Select “Install Now” to begin program installation

Step 9

Once software has been installed, copy IP address the software creates and paste it into Google Chrome browser.
