

## What is Life Force Energy -Tesla BioHealing the Healing from within

Life Force Energy is the essential vital force of nature harnessed from Nicolas Tesla's invention of this healing energy --Life Force Energy is also known in Chinese medicine as Chi, and in India as Prana, and in scientific communities as Scalar Energy or Tesla Energy is the healing energy for all life-- 3-dimensional waves. It is an energy to empower DNA, RNA, and cellular membrane to have the normal cellular activities and functions, and to enhance ATP production in all cells allowing each cell in the body to be fully charged with life-energy. Verified by Nicola Tesla at the end of the 19th century, Tesla Energy has been researched, studied, and tested for over 100 years as a natural force that produces extremely positive changes in every form of life.

Life Force Energy is the driving principle behind optimal vitality and wellbeing. It is the natural life-giving energy that we are born with, and that every cell needs to thrive. Life Force Energy has many known health benefits including but not limited to: Increasing **ATP** and millivolt levels in the cells, increasing circulation, decreasing pain, harmonizing the hemispheres of the brain, acting as a natural anti-depressant, increasing immunity by as much as **149%**, increasing cellular repair rates, and even ceasing cellular destruction rates. All of these health benefits and more are available simply by using **Tesla BioHealing's Life Force Energy OTC** medical devices.

This energy is emitted from the Earth and the Sun in the form of photon light particles. Plants convert this light energy directly into usable energy and so can the cells in our bodies. Light is essential to life and is an essential nutrient to all living things. This energy is stronger in certain natural environments like at the beach or in the woods or the mountains, and less so in artificial environments like in the cities or inside buildings. Just like oxygen, Life Force Energy is everywhere in its normal concentration. **Our body cell naturally interacts with Life Force Energy daily.** And just like oxygen, it can be concentrated to be used therapeutically. The **Tesla MedBed Generators** and **Tesla BioHealers** are FDA registered OTC Medical Devices that act as amplifiers to provide Life Force Energy in levels concentrated enough to promote and enhance healing, physically, mentally, emotionally, energetically, and spiritually at the cellular level. This Life Force Energy is what we are made of, and what nourishes us at the energetic and cellular levels.

Tesla BioHealer is an FDA registered OTC medical device for promoting blood circulation and reducing pain.

## Life Force Energy Known Benefits and Testimonials

Life Force Energy, also known as Tesla Waves or Scalar Waves, have been studied for decades on many different living organisms; from plants to animals and humans. Time and time again, Life Force Energy has been proven to positively affect living cells by increasing their ability to produce energy for the rest of the body. Research shows, Life Force Energy drastically increases cellular ATP levels (Adenosine Triphosphate, the energy molecule of life) rejuvenating all cells of the body.

Subtle energy is released consistently to promote natural healing and jumpstart cellular repair. The positive health benefits of Tesla Energy are being used across the globe today. Protects by neutralizing the harmful man-made electro-magnetic frequencies and radiation in and around the body.

## Safety of Tesla BioHealing Technology

After over 3 years of running safety and efficacy studies, and after over 5000 people utilizing our products, remarkable health improvements have been noted and no negative side effects have been reported.

Some people may experience energy sensitivity or a natural detoxification occurring shortly after use, but both of these experiences are safe and part of a healing process. Should any discomfort from energy sensitivity or a detoxification occur, simply place the units further from you for a few nights, and slowly bring them closer as is comfortable for you.

Those who may be naturally more sensitive to energy and who typically benefit from a slower integration into the energy field include: Energy workers, people sensitive to medication or other forms of therapy, autistic children, and those whose body is very depleted (terminal cancer patients, people with chronic fatigue, Lyme's, etc.)

Most people integrate into the energy field very well without the need for an adjustment period. Learn more here:
