

## MATERIAL SAFETY DATA SHEET

### 1. CHEMICAL PRODUCT & COMPANY IDENTIFICATION

|                              |                                                              |
|------------------------------|--------------------------------------------------------------|
| Product name                 | Never-Seez Pipe Cmpd w- Teflon                               |
| Product name(s) covered      | See Section 16 for Product Names Covered.                    |
| MSDS name                    | NEV-SZ PIPE CPD NPBT4 4OZ BT                                 |
| CAS number                   | Mixture                                                      |
| Generic description          | Miscellaneous                                                |
| Manufacturer                 | Bostik, Inc.<br>211 Boston Street<br>Middleton, MA 01949 USA |
| 24 hour emergency assistance | Telephone: 1-800-227-0332                                    |
| General assistance           | Telephone: 1-978-777-0100                                    |
| MSDS assistance              | Telephone: 1-414-607-1407                                    |

### 2. COMPOSITION / INFORMATION ON INGREDIENTS

The manufacturer lists no ingredients as hazardous according to OSHA 29 CFR 1910.1200.

### 3. HAZARDS IDENTIFICATION

|                          |                                                                                                                                                                                                                                                    |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Emergency overview       | Extended contact with this material may cause irritation to the skin, eyes, and mucous membranes. Primary Routes of Exposure: eyes, skin, and inhalation. Irritating fumes and gases may be released upon thermal processing or during combustion. |
| Potential health effects |                                                                                                                                                                                                                                                    |
| Skin                     | This product may cause irritation to the skin. Prolonged and/or repeated skin contact with this product may cause irritation/dermatitis.                                                                                                           |
| Eyes                     | This product may cause irritation to the eyes.                                                                                                                                                                                                     |
| Inhalation               | Fumes released during thermal processing may irritate respiratory system, skin and eyes.                                                                                                                                                           |
| Ingestion                | Ingestion may cause gastrointestinal tract discomfort or damage.                                                                                                                                                                                   |
| Target organs            | Skin.                                                                                                                                                                                                                                              |

### 4. FIRST AID MEASURES

|                                           |                                                                                                                                                                                                                                                                                                                                   |
|-------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| First aid                                 |                                                                                                                                                                                                                                                                                                                                   |
| Skin                                      | For minor exposures, wash thoroughly with soap and clean water. In situations involving considerable skin contact, place the contaminated person in a deluge shower for at least 15 minutes. Remove contaminated clothing to prevent further skin exposure and dispose of properly. Get medical attention if irritation persists. |
| Eye                                       | Immediately flush eyes with water for at least 15 minutes, while holding eyelids open. Seek medical attention at once.                                                                                                                                                                                                            |
| Inhalation                                | Move person to non-contaminated air. If the affected person is not breathing, apply artificial respiration. Seek medical attention.                                                                                                                                                                                               |
| Ingestion                                 | Do not induce vomiting. If person is conscious and can swallow, immediately give two glasses of water. Seek immediate medical attention. Do not give anything by mouth to an unconscious or convulsing person.                                                                                                                    |
| Notes to physician                        | Treat symptomatically and supportively. Contact Bostik to determine whether any additional information is available.                                                                                                                                                                                                              |
| Medical conditions aggravated by exposure | Dermatitis.                                                                                                                                                                                                                                                                                                                       |

### 5. FIRE FIGHTING MEASURES

|                                  |                                                               |
|----------------------------------|---------------------------------------------------------------|
| Extinguishing media              | Use dry chemical, carbon dioxide, or foam. Water spray (fog). |
| Dust explosion hazard            | None Known                                                    |
| Sensitivity to mechanical impact | None Known                                                    |

|                                             |                                                                                                 |
|---------------------------------------------|-------------------------------------------------------------------------------------------------|
| <b>Sensitivity to static discharge</b>      | None Known                                                                                      |
| <b>Unusual fire &amp; explosion hazards</b> | Product may burn and produce toxic gases in a fire.                                             |
| <b>Fire fighting equipment/instructions</b> | Firefighters should wear full protective clothing including self contained breathing apparatus. |
| <b>Flash point</b>                          | > 482 °F (> 250 °C)                                                                             |

## 6. ACCIDENTAL RELEASE MEASURES

|                                |                                                                                                                                                                                                                |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Emergency action</b>        | Appropriate safety measures and protective equipment should be used. See Section 8. Do not discharge to lakes, streams, ponds, or sewers. Dispose of in compliance with local, state, and federal regulations. |
| <b>Spill or leak procedure</b> | Scrape up grease and deposit into appropriate containers for disposal.                                                                                                                                         |
| <b>Reporting</b>               | See Federal reporting requirements listed in Section 15. We recommend you contact local authorities to determine if there may be other local reporting requirements.                                           |

## 7. HANDLING & STORAGE

|                                   |                                                                                                                                                                                                                                                                                   |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Storage</b>                    | Store in a clean, dry area. Keep containers closed.                                                                                                                                                                                                                               |
| <b>Empty container precaution</b> | Attention! Follow label warnings even after container is emptied since empty containers may retain product residues. Do not reuse empty container without professional cleaning for food, clothing, or products for human or animal consumption, or where skin contact can occur. |

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

|                                 |                                                                                                                                                                       |
|---------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Engineering controls</b>     | Ventilation is not normally required.                                                                                                                                 |
| <b>Eye protection</b>           | Wear safety glasses with side shields.                                                                                                                                |
| <b>Skin and body protection</b> | Wear protective impervious gloves to minimize skin exposure. Work clothing sufficient to prevent all skin contact should be worn, such as coveralls and long sleeves. |
| <b>Respiratory protection</b>   | Not normally needed.                                                                                                                                                  |

## 9. PHYSICAL & CHEMICAL PROPERTIES

|                                         |                             |
|-----------------------------------------|-----------------------------|
| <b>Solubility (H2O)</b>                 | < 0.1 Polymerizes in water. |
| <b>Target solids</b>                    | 1.8 - 12.9 %                |
| <b>Density</b>                          | 1.21 g/cc                   |
| <b>Odor threshold</b>                   | NA                          |
| <b>Octanol/H2O coeff</b>                | NA                          |
| <b>Odor</b>                             | Greaselike                  |
| <b>Color</b>                            | White                       |
| <b>Physical state</b>                   | Paste                       |
| <b>Freeze protect</b>                   | No                          |
| <b>VOC (Volatile Organic Compounds)</b> | 0 lb/gal                    |

## 10. STABILITY & REACTIVITY

|                                                   |                                                                                                                      |
|---------------------------------------------------|----------------------------------------------------------------------------------------------------------------------|
| <b>Hazardous reactions/decomposition products</b> | If product is burned hazardous gases such as oxides of carbon and nitrogen and various hydrocarbons may be produced. |
| <b>Hazardous polymerization</b>                   | Will not occur.                                                                                                      |
| <b>Conditions to avoid</b>                        | Avoid contact with Strong Oxidizers and Strong Acids.                                                                |
| <b>Stability</b>                                  | Stable under normal conditions.                                                                                      |

## 11. TOXICOLOGICAL INFORMATION

|                           |                                                                                                      |
|---------------------------|------------------------------------------------------------------------------------------------------|
| <b>Toxicological data</b> | If any toxicological data is available, it will be listed below:                                     |
| <b>Chronic effects</b>    | Chronic overexposure to the hazardous materials in this product has been associated with dermatitis. |
| <b>Carcinogenicity</b>    | If this product contains any carcinogens, they will be noted below:                                  |

## 12. ECOLOGICAL INFORMATION

VOC (Volatile Organic Compounds) 0 lb/gal  
Ecotoxicological information No data available for this product.

## 13. DISPOSAL CONSIDERATIONS

It is the obligation of each user of the product mentioned herein to determine and comply with the requirements of all applicable local, state and federal regulations.

**Waste disposal** Dispose of waste material according to Local, State, Federal, and Provincial Environmental Regulations. Be aware that State and Local requirements may differ widely depending on location and may in many cases be different from Federal rules.

## 14. TRANSPORT INFORMATION

### Department of Transportation (DOT) Requirements

Not regulated as dangerous goods.

### IATA

Not regulated as dangerous goods.

### IMDG

Not regulated as dangerous goods.

## 15. REGULATORY INFORMATION

This MSDS is prepared and distributed pursuant to the Federal Hazard Communication Standard, 29 CFR 1910.1200.

**Federal regulations** All components are on the U.S. EPA TSCA Inventory List.

### TSCA (Toxic Substances Control Act) - Section 12(b) - Export Notification

Carbonyl fluoride 353-50-4 [Section 5](#)

**State regulations** If this product contains any ingredients listed under California Proposition 65, they will be noted below:

### California - Proposition 65 - Developmental Toxicity

Lithium carbonate 554-13-2 [developmental toxicity, initial date 1/1/91](#)

**International regulations** This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and contains all the information required by the Controlled Products Regulations.

### HMIS Ratings

Health: 1  
Flammability: 1  
Physical hazard: 0  
Personal protection: X

### SARA 311/312 HAZARD CATEGORIES

Immediate Hazard - No  
Delayed Hazard - No  
Fire Hazard - No  
Pressure Hazard - No  
Reactivity Hazard - No

**WHMIS status** Non-controlled

## 16. OTHER INFORMATION

**Product name(s) covered**
