

Standard Layout Options:

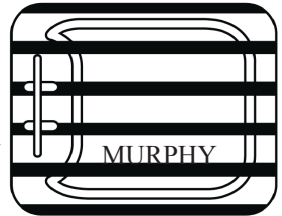

There are a thousand way to make your board yours,
but here are some of our defaults to help you along!

Initials or monograms will
be centered and proportional to the board.

Names will be as you submit
them, showing upper and lower case,
or all caps

Names are orientated between stripes,
and toward to bottom
of the board unless otherwise noted

Boards with logos and names or dates
will have the logo centered
and text below, in proportion.

Double handle appetizer boards have the text centered
between the lines

Layout

Want something else? its never a problem, just ask!

Engraving Fees:

Engraving is done on a per line or image basis.
Here are some example of how we calculate charges:

A monogram or initial would generate a single engraving charge, while a monogram with a date below it would generate 2 engraving charges.

A round dual frame with
Name, date and initial
in the center would generate
3 engraving charges.

We offer a full service of conversion and generation, from photos
to doodles, we can help!

* some charges may apply for custom art work.
